PROPERTY RIGHTS DECLARATION

okay  
We, Michael J. Ingram, citizen of the United States and residing at 105 East Avenue B, Melbourne, Florida 32901, Simon J. Matthews, citizen of the New Zealand and residing at 333 Wayne Avenue, Indialantic, Florida 32903, James J. Squadrito, citizen of the United States and residing at 8 Warren Street, Ipswich, Massachusetts 01938, respectively, declare that:

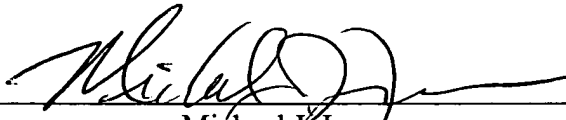

1. We made and conceived the invention described and claimed in patent application Serial Number 10/824,769 filed in the United States of America on April 14, 2004 entitled:  
COMPUTER METHOD AND APPARATUS FOR AIRCRAFT MIXTURE LEANING
2. We made and conceived this invention while employed by Avidyne Corporation. The invention is related to the work we are employed to perform and was made within the scope of our employment duties.
3. The invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Avidyne Corporation.
4. To the best of our knowledge and belief, the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy.

5. To the best of our knowledge and belief, the invention was not made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
